

Overview: Symantec® offers its customers the NetSure® Protection Plan with each Secured Sockets Layer (SSL) Certificate. NetSure is an extended warranty program that protects SSL Certificate customers against certain losses resulting from breach by Symantec of the warranties included in the SSL Certificate.

What's New: Symantec has recently extended the warranty limits for many SSL products (including VeriSign®, Thawte® and GeoTrust® brands) which, in some cases offer a distinct advantage over the competition. VeriSign SSL Certificates now include up to \$1,500,000 of NetSure® protection.

New Limits: New warranty limits for NetSure Certificates are as follows and coverage applies to Certificates issued on or after July 30, 2011.
